

Dance Like You're Holding Me

Nico Santos

Always
Forever and always
You'll be my only
You should know that by now
Yeah we got stories
Way too many stories
And you'll be there to end with it
You should know that by now

Sometimes we're gonna end up miles apart
I'll let you into a little secret when it's dark
And the music makes you lonely
Start dancing like you're holding me

When you're not by my side
Just to get through the night
I put on our favorite tunes
And I dance like I'm holding you
When you're too far away
Counting down every day
Promise you'll always be
Dancing like you're holding me

Dance like you're holding me
Dance like you're holding me
Promise you'll always be
Dancing like you're holding me

Honey
I don't need money
Fame or glory
It looks like I lucked out
And I hope you
Hope you're through the same 'cause
Without you I'm a shadow
When the sun goes down

Sometimes we're gonna end up miles apart
I'll let you into a little secret when it's dark
And the music makes you lonely
Start dancing like you're holding me

When you're not by my side
Just to get through the night
I put on our favorite tunes
And I dance like I'm holding you
When you're too far away
Counting down every day
Promise you'll always be
Dancing like you're holding me

Dance like you're holding me
Dance like you're holding me
Promise you'll always be
Dancing like you're holding me

Always

Forever and always
You'll be my only
You should know that by now

When you're not by my side
Just to get through the night
I put on our favorite tunes
And I dance like I'm holding you
When you're too far away
Counting down every day
Promise you'll always be
Dancing like you're holding me

Dance like you're holding me
Dance like you're holding me
Promise you'll always be
Dancing like you're holding me
