

Easy

Nico Santos

I don't wanna waste another night
Flipping over every single lie
Going from "I love you" to "Goodbye"
Mercy, show a little mercy, yeah
Can't believe that I was so naive
All the little tricks you played on me
Should've known the beauty is the beast
Hurt me, why you wanna hurt me, yeah?

You told me forever
But it turned into a never
Like a promise doesn't matter
When you're changing like the weather
Do you really think you'll ever
Find someone to love you better?

Oh, was it easy to let me down?
Was it easy when you walked out?
Tell me, was it somebody, somebody new?
That made you wanna leave me
Was it easy to let me down?
Why the hell did you shut me out?
Tell me, was it somebody, somebody new?
Don't tell me it was easy, so easy to

Let me down, let me down, let me down
Let me down, let me down easy
Let me down, let me down, let me down
Don't tell me it was easy

You know how I love you in that dress
You just makin' sure I won't forget
Everything we used to do in bed
Mercy, show a little mercy, yeah
Kinda makes you wanna cross that line
How you makin' sure you cross my mind
Can't do nothing how I wanna
Why you wanna hurt me?
Why you wanna hurt me, yeah?

You told me forever
But it turned into a never
Like a promise doesn't matter
When you're changing like the weather
Do you really think you'll ever
Find someone to love you better?

Oh, was it easy to let me down?
Was it easy when you walked out?
Tell me, was it somebody, somebody new?
That made you wanna leave me
Was it easy to let me down?
Why the hell did you shut me out?
Tell me, was it somebody, somebody new?
Don't tell me it was easy, so easy to

Let me down, let me down, let me down

Let me down, let me down easy
Let me down, let me down, let me down
Don't tell me it was easy

You left a nickel on the day you walked out of me
In your stilletoes, why'd you ever said you want me?
So hard to let go, but you make it look so fucking... easy

Oh, was it easy to let me down?
Why the hell did you shut me out? (Shut me out)
Tell me, was it somebody, somebody new?
Don't tell me it was easy, so easy to

Let me down, let me down, let me down (Oh)
Let me down, let me down easy
Let me down, let me down, let me down
Don't tell me it was easy
