

# Heatwave

Nico Santos

Hallelujah!  
You're what I waited for  
Nothin' matters  
Go, wash the past ashore

My mama told me, I won't be lonely  
Well, I lost my heart tonight  
Come on, just hold me, just like you know me

How does it feel  
If our bodies touched right now?  
How would you feel  
If we'd let our guards drop down?

Right now, right now  
Maybe we could have it all  
Right now, right now

Build a fire  
And let's get lost in flames  
Nothin' matters  
Just let our senses crave

My mama told me, I won't be lonely  
Let's just lose our hearts tonight  
Let me just hold you, just like I know you

How does it feel  
If our bodies touched right now?  
How would you feel  
If we'd let our guards drop down?

Right now, right now  
Maybe we could have it all  
Right now, right now

Just like a heatwave  
Just like a heatwave

Let me just hold you  
When your heart turns weak  
I wanna get lost in your eyes

And how does it feel  
If our bodies touched right now?  
How would you feel  
If we'd let our guards drop down?

Right now, right now  
Maybe we could have it all  
Right now, right now

Just like a heatwave  
Just like a heatwave
