

# Human Being

Nico Santos

Everywhere I've gone, everything I've seen  
It's hard just being a human being  
Everything I've done, everywhere I've been  
It's hard just being a human being  
Everywhere I've gone, everything I've seen  
It's hard just being a human being  
Everything I've done, everywhere I've been  
It's hard just being a human being

My back against the wall  
Tried to run but can't run no more  
Got a heart but don't know what for  
Wanna trust but can't trust them all

I've been there, I've done that  
I made it, I came back  
I found my way back to being me  
I had it, I lost it  
A slave to my problems  
But love set me free

Everywhere I've gone, everything I've seen  
It's hard just being a human being  
Everything I've done, everywhere I've been  
It's hard just being a human being

I wish I could fly away like a bird  
I wish I could run away and just be me  
Wish I was as free as you look to me yeah  
It's hard just being a human being

These days, they feel so cold  
But you're the fire inside my soul  
The reason I can do it all  
The reason I don't feel so small

I've been there, I've done that  
I made it, I came back  
I found my way back to being me  
I had it, I lost it  
A slave to my problems  
But love set me free

Everywhere I've gone, everything I've seen  
It's hard just being a human being  
Everything I've done, everywhere I've been  
It's hard just being a human being  
Everywhere I've gone, everything I've seen  
It's hard just being a human being  
Everything I've done, everywhere I've been  
It's hard just being a human being

I wish I could fly away like a bird  
I wish I could run away and just be me  
Wish I was as free as you look to me yeah  
It's hard just being a human being
