

# Ride

Nico Santos

When the sun goes down, who knows where we'll be tomorrow?  
So we should ride, ride, ride, ride  
Leave this town to the only place that we know  
Yeah, we should ride, ride, ride, ride

You could try your hardest, but you know that sometimes  
Troubles gonna find you anywhere that you hide  
Swear I tried to keep it straight for once in my life  
I promise where we go, we'll leave our worries behind

Out here on our own  
Nothin' I need when you're with me, so  
Tell me where to go  
My love

When the sun goes down, who knows where we'll be tomorrow?  
So we should ride, ride, ride, ride  
Leave this town to the only place that we know  
Yeah, we should ride, ride, ride, ride

So we should ride, ride, ride, ride  
Yeah, we should ride, ride, ride, ride

You never judged me on the man I was before, you  
Took my broken heart and made it beat with yours, now  
I will stand beside you through the fire and storm  
Never knew what home was, but with you I'm sure, yeah

Out here on our own  
Nothin' I need when you're with me, so  
Tell me where to go  
My love

When the sun goes down, who knows where we'll be tomorrow?  
So we should ride, ride, ride, ride  
Leave this town to the only place that we know  
Yeah, we should ride, ride, ride, ride

With you by my side, I'm in this for life  
Baby, we should ride, ride, ride, ride  
Yeah, with you by my side, I'm in this for life  
We should ride, ride, ride, ride

When the sun goes down, who knows where we'll be tomorrow?  
So we should ride, ride, ride, ride  
Leave this town to the only place that we know  
Yeah, we should ride, ride, ride, ride

(So we should ride, ride, ride, ride)  
(Yeah, we should ride, ride, ride, ride)
