

# When The Day Comes

Nico & Vinz

I'm ready for war  
Come into town and I'll hide you on the rise  
In the city of gold  
Fighting the tower with my feelings aside  
When it's 2 in the night  
The fire's in my heart is gon' keep me alive  
And I'm ready for war

The voice in my head  
It's telling me that I should stay in my bed  
Cause it's 2 in the night  
Why can't I sleep when it's 2 in the night  
Cause the fire in my soul, hey  
The fire in the soul got me ready to fight  
And I'm ready for war

Climbed the streets  
And I found my way over  
You know I've been so lost in translation  
Like I'm fighting for truth in Babylon  
Tryna find my peace in this zone of war

Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
I'll be ready when the day comes

I'm ready for war  
I'm ready for action, now watch me kick in the door  
But what if the day comes when we go from sun to monsoon  
Who can I run to, run to, run to  
Will you be loyal, will you be true when I need you  
Say

Climbed the streets  
And I found my way over  
You know I've been so lost in translation  
Like I'm fighting for truth in Babylon  
Tryna find my peace in this zone of war

Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
I'll be ready when the day comes

Even when the sky comes falling down  
I'll be ready when the sky comes falling down

Today

I will march for me  
Today  
You will march for you  
We raise our arms and hope for better ways  
We fight a million battles every day  
I don't wanna see us falling  
So we just gotta keep on running  
Even when the day comes calling  
I'm ready to march

Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
Even when the day comes  
I'll be ready when the day comes
