

Fix Me

Nicola Roberts

Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart
Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart

How many roads did I walk down before I knew
I was lost and broken, they all lead straight to you
A pretty Frankenstein that you taught how to smile
I'm coming undone, you've got, got to make me new

I got my skin, got my bones but I am barren of a soul
My arms stretched out before you

I am every broken girl, living in a tainted world
You can put me back together, won't you take me home
You can fix me up
I am every broken girl, caught up in a deadly world
You can put me back together, won't you take me home
You can fix me up

Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart

I try to talk to God, but I'm talking to myself
Through the silent echoes you can hear my voice
The plasters and the pills, the stitches and the drills
Trade my clock for your heart, I'm not like other toys

I got my skin, got my bones but I am barren of a soul
My arms stretched out before you

I am every broken girl, living in a tainted world
You can put me back together, won't you take me home
You can fix me up
I am every broken girl, caught up in a deadly world
You can put me back together, give me a home
You can fix me up

Fix me up or break me now, oh you know how
Fix me up, I won't go back, I won't go back now

(Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart
Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart)
I'm coming home, I'm coming home
(Fix me, kiss me, break me, tear me apart
Hold me, love me, mend me, give me your heart)
I'm coming home so you can fix me up
