

Electric Blue

Nicole Scherzinger

Tonight,
All I think about is you
On my high,
This is what you do
Rock with me, steady
Set ready, sweet baby
Coming down, gon' fit it
Rock it steady,
Feeling good already
Look at what you do,
Electric blue,
I need you, you need me
It's amazing what we could be
I need you, you need me
This is what those little letter said down to me

Do you wanna talk about it,
Do you wanna breathe about it?
Bring your ass over here, come see about it
Uuuh oh oh ooh

All the time got you on my mind,
Should we go crying? give me life
Uh, don't ever let signs, let me help you decide
'Cause I'm yours, it's only right that you would be mine
Rock it steady,
Feeling good already
Look at what you do,
Electric blue,
I need you, you need me
It's amazing what we could be
I need you, you need me
This is what those little letter said down to me

Do you wanna talk about it,
Do you wanna breathe about it?
Bring your ass over here, come see about it
Uuuh oh oh ooh

Do you wanna talk about it,
Do you wanna breathe about it?
Bring your ass over here, come see about it
Uuuh oh oh ooh
