

## Trapped In Time

Nicole

Every night I dreamt the wildest dreams  
in my mind  
I could fly.  
All those years and all the songs that  
came along with happiness and strive  
you've gotta fight.  
So if you listen  
closely to my heart  
just hear the whispers  
that made me realize  
all the things that I will find  
through the stories that changed my life.  
(Chorus)

Trapped in time  
looking back  
to the deepest ocean of my heart.  
Trapped in time  
in this ride  
that takes me  
to those feelings that I've left behind. Ooh...  
Many places  
different faces  
that came and went but left me traces  
it seems so long ago  
but I have to keep it close.  
So if you listen  
closely to my heart  
just hear the whispers  
that made me realize  
all the things that I will find  
through the stories that changed my life.  
(Chorus)

Trapped in time  
looking back  
to the deepest ocean of my heart.  
Trapped in time  
in this ride  
that takes me  
to those feelings that I've left behind.  
I'm trapped in this time  
I'm looking back  
to those feelings that I've left behind  
ohh uuh, uuh...  
To those feelings that I've left behind.
