

Rio De Janeiro Blue

Nicolette Larson

The clouds come creepin' and you got me weepin' this morning
And I can't believe you're really gonna leave this town
Everyone knows I can't make a move without you
You're turnin' my whole world upside down

And I get a feelin' I've seen the last of you
Rio de Janeiro Blue

The salt sea air your windblown hair
Reflections on a dream
Thoughts of you with who knows who
Flow through me like a stream
Brazilian serenaders linger on
Help me lose my soul in your song

And I get a feeling I've seen the last of you
Rio de Janeiro Blue

The months go by I wonder why
I'm left here on my own
Could it be my destiny
To live my life alone?
These dark and rainy days have turned me cold
Lonely sleepless nights are getting old

And I get a feeling that I've seen the last of you
Rio de Janeiro Blue
Rio de Janeiro Blue
