

## In And Out Of You

Nicotine Dolls

I don't want to slip away now  
Move a hand or hesitate  
How did I end up in your bed

I love the smell of your pillow case  
How the cheap shampoo tastes in your hair  
This is better than anywhere

I could fall in and out of you  
I could fall in and out of you

Playing back the night before  
Tall drinks, shots like it's medical  
Your lips they were cynical

Your friends left so we ran away  
To your place on 28th, 10th Avenue  
With a New Jersey city view

I could fall in and out of you  
I could fall in and out of you

Don't wake up  
'Till I'm ready for you now  
I'm ready for you now  
Don't wake up  
'Till I'm ready for you now  
I'm ready for now

I could fall in and out of you  
I could fall in and out of you  
I need to fall in and out of you

I lose all control  
All over you  
All control  
I'll be all over you

I could fall in and out of you  
I need to fall in and out of you
