

Last Train to Jordan

Night Beats

Got a new set of reasons why I cannot come home
The taste of the honey makes my stomach go numb
Heat in the summer makes me lie to myself
I got a feeling I ain't going to stay here

It's the last train out of Jordan
It's the last train outta here

Got a new understanding where the flowers grow tall
The house gets smaller as I walk through the hall
The taste in my mouth brings it all to life
New sensation when they turn on the light

It's the last train out of Jordan
It's the last train outta here
Heh!

You spinned around when I stare at the light
A shiny bright lava when it glows bright
A howl in your body and a hand at the sun
A new sensation when your body goes numb

It's the last out of Jordan
It's the last train outta here
Yeah, uh, uh

It's the last train out of Jordan
It's the last train outta here
It's the last train out of Jordan
It's the last outta here
It's the last train Jordan
It's the last outta here
