

One Thing

Night Beats

Whoa, you gotta run me
Come on and rub me down
All you gotta do is own me
And make a holy sound
Oh don't you keep me waiting
I met a decent man
Oh don't you tease me
Just 'cause you know you can

My fire's going down the drain
'Cause I got one thing on my brain
One thing
Is driving me crazy
One thing
Your body can save me
One thing
One thing

Whoa don't gotta know me
But you can leave me down
You just gotta love me

I'll even be your clown
You can shake me, sock me
Tell all your friends you got me in your web
You can use me and bruise me
Treat me like a groupie
Get out of my head

My fire's going down the drain
I got one thing on the brain
One thing
My body's on fire
One thing
I can't help but require
One thing
One thing

It's driving me crazy
One thing
Nobody can save me
One thing
One thing
Yeah
Hey
Ha
Yeah
Yeah
Woo
