

Right / Wrong

Night Beats

Sometimes I forget this animal
Is missing I don't know I cannot regret
If I'm right or wrong when I do a song
But I needed it only you

Want us to have a drink
Of maybe soon
What is wrong with you
What you want me to say to you
I can help you find
Then a peace of mind
That I need to learn
Is all in your mind
Why can't this be the future of this
What else do you need to know
Never needed you
Not going to follow you
Now I'm coming back for you
