

# Control

Night Club

Baby, do you wanna take me?  
Do you wanna break me?  
Just let me know  
Baby, do you wanna taste me?  
Do you wanna waste me?  
It's your show

All I wanna be is the one you control  
All I wanna be is the one you control

Baby, nothing's gonna save me  
Go ahead and make me  
Feel control  
Maybe you think I'm crazy  
But nothing can replace me  
You should know

All I wanna be is the one you control  
All I wanna be is the one you control

Never, never, never let go  
You are the one that's in control  
Never, never, never let go  
You are the one that's in control  
Never, never, never let go

All I wanna be is the one you control  
All I wanna be is the one you control  
All I wanna be is the one you control  
All I wanna be is the one you control  
All I wanna be is the one you control  
All I wanna be is the one you control
