

Fatal Crush

Night Club

I get high from the pain
Feels like a drug
And I need it, yeah, I need it just a little too much
I get high from the pain
I love the rush
Cause I need it, yeah, I need it just a little too

I've been waiting for you
My strange heart needs so much more of you
More of you, more of you, more of you

Now my desire's not enough
I'm getting higher, burning up
You're like a fire I'm dying to touch
A fatal crush

I get high from the pain
Feels like a drug
And I need it, yeah, I need it just a little too much
I get high from the pain
I love the rush
Cause I need it, yeah, I need it just a little too

I've been bleeding for you
Deranged heart needs so much more from you
More from you, more from you, more from you

Now my desire's not enough
I'm getting higher, burning up
You're like a fire I'm dying to touch

A fatal crush
I get high from the pain
Feels like a drug
And I need it, yeah, I need it just a little too much
I get high from the pain
But I love the rush
Cause I need it, yeah, I need it just a little

I get high
I get high
I get high
I get high
I need more of you, more of you, more of you, more of you

Now my desire's not enough
I'm getting higher, burning up
You're like a fire I'm dying to touch
A fatal crush

I get high from the pain
Feels like a drug
And I need it, yeah, I need it just a little too much
I get high from the pain
I love the rush
Cause I need it, yeah, I need it just a little

Need it just a little
