

Strobe Light

Night Club

Something's got a hold on me
It's beginning to haunt me
Baby, I gotta know
Do you even want me?

Why don't you finish what you started?
Don't leave me here broken hearted
Dancing alone in the darkness
At the edge of the night

Your love is like a strobe light
You turn it on, then you turn it off
It gets so bright
But I can't see baby when it stops

You tell me all these things
Why can't you just show me?
Baby, you're so unsure
Do you even know me?

Why don't you finish what you started?
Don't leave me here broken hearted
Dancing alone in the darkness
At the edge of the night

Your love is like a strobe light
You turn it on, then you turn it off
It gets so bright
But I can't see baby when it stops

Like a strobe light
Like a strobe light
Like a strobe light
Like a strobe light

Why don't you finish what you started?
Don't leave me here broken hearted
Dancing alone in the darkness
At the edge of the night

Your love is like a strobe light
You turn it on, then you turn it off
It gets so bright
But I can't see baby when it stops
Your love is like a strobe light
You turn it on, then you turn it off
It gets so bright
But I can't see baby when it stops

Like a strobe light
Like a strobe light
Like a strobe light
Like a strobe light
