

# Dark Light

Night Lovell

And I come back  
Niggas tryna flex  
Tell me that I'm lost, and located in the back, though  
Don't even wanna check  
Niggas still wanna call it a day  
Approach me, ain't got shit to say  
Talkin' to me like you wanted to stay  
When it come back around and you still tryna play  
Go and break it down for a nigga  
Go and break it down just a little, have love for a nigga  
But they steady playin' games with a nigga  
Steady throwin' names for a nigga  
One time for you niggas  
And I'm goin' with my stash  
Tryna make it last  
Thoughts overflow like they did in the past  
And with me they still tryna ask  
Fuck you wanna know 'bout me?  
Fuck a nigga bitch off a 40 oz  
Shit I keep it low-key  
Many people sayin' that they know it  
Like there's plenty of that shit I ain't see  
Catch me overseas in a fuckin' white tee  
Bitches say "Lovell man, I really want the D"  
Niggas say "Lovell man, I really wanna see"  
You don't know 'bout me

Stress keeps building  
Blood stops flowin'  
Brain got me open  
Gone off a potion  
Stress keeps building  
Gone off a potion

Stress keeps building, stress keeps building  
Gone off a potion, gone off a potion, gone gone off a potion
