

LIFE SUCKS SO WE FUCK

Night Lovell

outby16, or dead on the scene, but together for fucking ever

Slide on a bitch, we don't care 'bout no stick
Pretty bitch, she take dick, but I bust on her tits
I got three, I got four, I got five, I got six
This so fye all my hoes at my damn fingertips (Yeah)
I control my life, but I know this ain't what it's meant to be (Meant
)
Lookin' back in time, there was no way that you could tend to me (Ten
d)
Stand on what I said, I know I can't bring back yo' energy (Energy)
Wasted all this time, bitch, all that shit was just a mess to me (A m
ess)
Wake up, time to cake up (Kk), fuck investigators ('Gators)
You slip then I'll take her (Fly), pussy, see you later (Later)
Hate it when I stand out (What?), niggas lowkey fanned out (What?)
Sorry that I left you, I'm okay with how it panned out (Fuckin' see)

I can float through memories
And see past the darkest of my dreams
Life is not for everyone, definitely not for me
Stand on the toes of my enemies
Silence is what I want for now
My head is stuck inside a cloud
So leave my brain to sit and bleed

Life sucks, so we fuck, there's no better remedy
Niggas diss, we get buck, leave yo' bodies on the street
Kill the rest, make 'em duck, all I wanna see
Fuck you niggas and yo' family, you so dead to me
(Aw, yeah)

Crucifixes and coffins, often kerosene in my alter
Often sell your soul to get chains, I fear
Can't sell shit you don't own, my dear
I drop a nuke on the whole world, reset (Okay)
Only warm when a motherfucker meet death (Okay)
Two step, one two, two step, I (Okay)
Tried to warn you soldier, didn't I?
Overdosed in my hotel room
And the whole damn world went red
France would sentence to guillotines
And I watch the roll of my head
Took the path of the crusader and I saw where serpents tread (Huh?)
Four big white soft padded walls
And I lay the dirt in my bed

Ha-ha
