

Won't you show me love  
Of all answers I've known  
A ballroom dancer unclothed  
All unfound  
The steps she moved with the young  
Kept me coming around

I'll never know, oh what you did

Don't take the moonlight  
Don't take the moonlight  
What showed of love  
The carousels in town  
Kept me coming around

I don't think what you sought  
What you sought of my nights  
With color of your horses won't lie

Don't take the moonlight  
Don't take the moonlight  
You've been waiting the years  
There's nobody else I fear  
Oh unless you go  
Oh lest you go

And show me love  
All Love and outta of past  
A ballrom dancer is dead

Someday I'll see in the deserts found  
The color of you warmth skin turning brown  
And I'll be gone  
Someday you'll be gone

Where you're led astraythe comfort  
Of the pastand all  
You've knowand all you'll  
Owe round about the times  
The ends you'd know you knew  
But waited on all  
Of them, I told you then
