

Kind Luck

Night Moves

Keep on coming was a kind o' hand
Caught off looks and well you'll understand
While I was going you made me nothing
Call it a wild wind love
And all the time I hang around with your kind luck
Oh your kind luck

But it ain't enough
I've passed the time with love
But it ain't enough
I've passed the time when I'm done

I think we know
But it's better we've been shown
And it keeps you running along
Along

When I'm a runnin' and you waste my time
If you were gone well it made my mind
While I was goin' you made me nothing
Caught in a wild wind love
And all the time I air you out with your kind luck
Oh, your kind luck

But it ain't enough
I've passed the time when I'm done
But it ain't enough
I've passed the time with love

I think you know
And it's better we've been shown
But it keeps you running along
Along
Along
