

Saving the Dark

Night Moves

Left me running
Had it coming
I've been worrying since the day we met
You were off the deep end
Hard to handle
Your ambition was the thing you'd left
Waiting all around here
Maybe gone I'm seeing this yet

Take him away
Don't you take him away
Don't you take him away from me
Well he was all I ever I had
Won't you stay turn back
Still you are who I need

Pain is coming
Pain is going
Still you know it was the best you've had
Hoping I can find what's left

They left you stumbling in your scurrilous ways
Though you've tried, still you waste the praise
If it weren't high and low games
Still they took your pension and your pay
Reservations
Isolations
Complications
Might take him away

Waiting all around here
Hoping for another day
