

Strands Align

Night Moves

I'm just somebody who got caught in a game
I do believe that it's taken some time
Slow chances went and slid on by
A way out that I couldn't decide

Strands align, stand in line
To be there with you, slowly flyin'
Strands align, tryin'a stay in line

You can't rely on anybody
When you're left alone for so long
Rocks that look like clouds
I don't know who I can trust these days
I don't know if I can trust my ways

Strands align, stand in line
To be there with you, slowly flyin'
To see my love 'neath company lying
Strands align, no end in sight

I'm just another who got caught in the game
Like everyone, shedding skins again
For so long, rocks that look like clouds
Low stakes, high chances will end
Killing me and taking my whole pride
In that moment that I'm bound to lose
I couldn't lie on a line like you

Strands align, stand in line
To be there with you, slowly flyin'
To see my love 'neath company lying
Strands align, I'll stand in line

Strands align
Tryin'a stay in line
