

Cold as December

Night Ranger

How many more times
Do I have to explain
I need a good lovin' woman
Doesn't drive me insane
Cold as a stone
You know how much that I bleed
When all I try to do is scratch your need

Over and over
I can see thru ya
Maybe you fooled me again
Cold as December
I won't be hanging around

It's been a long time
Since ya heard it from me child
I see it all you think I'm blind
Like some loser in need ya
I'll never understand
All your lovers and friends
With a bottle of Jack
I'm getting drunk again

Over and over
I can see thru ya
Maybe you fooled me again
Over and over
I can see thru ya
Maybe you fooled me again
Cold as December
I won't be hanging around

Over and over
I can see thru ya
Maybe you fooled me again
Over and over
I can see thru ya
Maybe you fooled me again
Cold as December
I won't be hanging around

Oh baby baby bay please
You gotta hear you gotta hear what I say
Tear way the walls
Cause what happens when it all falls
There's no memories anymore
Oh no oh no no

Over and over
I can see thru ya
Maybe you fooled me again
Over and over
I can see thru ya
Maybe you fooled me again
Cold as December
Cold as December
Cold as December

Cold as December
