

Dance

Night Ranger

It's hard for me when the sun goes down
Never know how I'm gonna feel
In this old broken down town
So many dreams I've been leaving behind
Guess I oughta know by now
Time ain't no friend of mine

And the wheels keep spinning
As I'm heading down the road
And the thought that keeps me going
I just thought I'd let you know

I wanna dance
I wanna dance all night with you
I wanna dance
I wanna dance the night with you
I'm gonna sing
I wanna spend the night with you

What do you see when the lights go down
Nobody wants another rained out story in this sad old town
So do what you want and say what you will
I got a bullet proof shield
I can take a hit get up and and make it no big deal

Yet the wheels keep turning
Around and round they go
Ya know the thought that keeps me going
I just had to let you know

I wanna dance
I wanna dance all night with you
I wanna dance
I wanna dance the night with you
I'm gonna sing
I wanna spend the night with you

Yea I look around
Let me tell you that I found the world in you
Every time I'm with ya the day it ends too soon
In the knock down take it all drag it out world we live in
I wanna dance like the devil all the way to heaven
I just wanna just wanna dance
I just wanna just wanna dance

I wanna dance
I wanna dance all night with you

I wanna dance
I wanna dance all night with you
I wanna dance
I wanna dance the night with you

I wanna dance
I wanna dance all night with you
I wanna dance
I wanna dance the night with you

I'm gonna sing
