

# Knock Knock Never Stop

Night Ranger

Some child knockin', knockin on my door  
Looking for the party again  
Sons are rockin', rockin' all night  
Gonna turn it all the way up to ten

Waiting for the show, feelin' alright  
Everyday lookin' like a Saturday night  
Got the wheels to the road, I'm along for the ride  
I need a long tall Sally keep me up all night

Knock knock, never stop, do it again  
I'm already there, I don't know where I've been  
Knock knock, never stop, I'm at it again  
Rock and roll unto to the end

Tell me you're ready, ready or not  
There's a fire burning outta control  
You can try to turn left, you can try to turn right  
But there's only one way to go

The harder they come, the harder they fall  
Everyone's lookin' for a way to get it all  
Maybe you'll see, don't tell me you're right  
You got one spin, baby, have the time of your life

Knock knock, never stop, do it again  
I'm Already there, I don't know where I've been  
Knock knock, never stop, I'm at it again  
Rock and roll run unto the end

So you think you're gonna be a big pop star  
Everybody's gonna know who you are  
Never stop until you roll the big wheel of life

Knock knock, never stop, do it again  
I'm Already there, I don't know where I've been  
Knock knock, never stop, I'm at it again  
Rock and roll unto the end
