

Fly beyond your dreams  
Find what if means  
You have potential  
Crying your soul can be heard  
It's not absurd  
Your spirit's essential  
Throw stones to aflame  
Lead turn to rain, it's incarnation  
And time seems rearranged  
It might feel strange  
It's just transition

Is it black magic you feel in your heart?  
Set you free  
Feeding off the mojo  
Something you need and you'll  
Part with like me  
Feeding off the mojo

Feeling safe and secure  
It's your own world a new religion  
The truth becomes when you believe  
The answers you reach through your ambition

It it black magic that fills in your heart  
It could be  
Feeding off the mojo  
You hold it real close  
There no day you start with like me  
Feeding off the mojo

Remember the promise  
Mojo keep your word tonight  
Believe in me and it will be alright  
Take me the distance  
Show me now mojo I'm never  
Gonna let you go  
Feeding off the mojo [repeat]
