

## X Generation

Night Ranger

Round and round round you go  
Where it stops nobody knows  
Tell me tell me tell me the truth  
Ain't no place between happiness  
And you  
And if that ain't true

Sixteen candles on the floor  
Breaking down your bedroom door  
Always looking out for more  
Ratchet up take it up ratchet up  
Baby baby

Across the nation  
There's a new sensation  
X generation

Taking taking taking your time  
Do it up right is there light  
At the end of your line oh yea  
Waiting, waiting keep waiting on you  
Maybe I'm over it all  
I can see my way through  
If that ain't you

24 answers in a day  
Checking out the hell you say  
Watch me laugh cause that's my way yea  
Rack it up, take it up, rack it up  
Shake it baby

Across the nation  
Anticipation  
X generation

Across the nation  
It's a new vibration  
X generation

There's such a thing  
As wasting all your time  
Who am I to tell you now  
Take it on down yea

The sun rises on a hill  
In a very faraway place  
They walk down the streets of life  
Skipping over the stones  
And everybody wants to know  
Is it really true  
And everybody wants some more  
Rack it up, take it up, ratchet up  
Across the nation

Across the nation  
Anticipation  
X generation

Across the nation  
It's a new vibration  
X generation

Across the nation  
I said across the nation  
X generation
