

## Fangs

## Night Riots

Shadows follow me, but she is always out of reach  
And she's my favourite thing to see  
Her hook is my escape, a reflection of my fate  
And she is everything I need, yeah

So sink your fangs, fangs, fangs, into me  
Only for you, you, you, I'll bleed  
Can't you see, that you could set me free?  
So sink your fangs, fangs, fangs, into me

Without her in a gloom, cold sweating in my tomb  
If she was only here with me  
She is the pale blushing moon, to cast sun into my room  
She is the only light I need, yeah

So sink your fangs, fangs, fangs, into me  
Only for you, you, you, I'll bleed  
Can't you see, that you could set me free?  
So sink your fangs, fangs, fangs, into me

Hear me call  
I will wait, it's you I wait for  
Hear me call  
I will wait, it's you I wait for  
Hear me call  
I will wait, it's you I wait for  
Hear me call  
I will wait, I will wait

So sink your fangs, fangs, fangs, into me  
Only for you, you, you, I'll bleed  
Can't you see, that you could set me free?  
So sink your fangs, fangs, fangs, into me

So sink your fangs, fangs, fangs  
So sink your fangs, fangs, fangs  
Sink your fangs, fangs, fangs, into me  
Can't you see, that you could set me free?  
So sink your fangs, fangs, fangs, into me
