

Leave Us Alone

Night Riots

Afraid of your neighbors
Afraid out at night
Raining in California
Darling, we're gonna be alright

Leave us alone, we're not the problem
Two sides of us, the same disease, breath
Circle around 'til you hit the bottom
The endless story just repeats

Yeah, leave us alone
Alone
Yeah, leave us alone
Alone
Leave us, us, us...

Afraid of a stranger
Afraid of the law
Raining in California
No, no we don't belong

Leave us alone, we're not the problem
Two sides of us, the same disease, breath
Circle around 'til you hit the bottom
The endless story just repeats

Yeah, leave us alone
Alone
Yeah, leave us alone
Alone

Watch me lean in
Watch me lean in
I lean into
Watch me lean in
I lean into the fall
Far away from it all

Leave us alone, we're not the problem
Two sides of us, the same disease, breath
Circle around 'til you hit the bottom
The endless story just repeats

Yeah, leave us alone
Yeah, leave us alone
Yeah, leave us, us, us...

Leave us alone, we're not the problem (yeah, leave us alone)
Two sides of us, the same disease, breath
Circle around 'til you hit the bottom (yeah, leave us alone)
The endless story just repeats
