

## Fire with Fire

Night Terrors of 1927

I, I didn't believe it when,  
My enemy it quit before bloodshed.  
I fight to the bitter end,  
And I didn't see it when you gave in.

But I've been up nights talking to my god,  
Can't see the plan he's got  
Or what the hell he wants.  
And I'm so tired my gloves have come off,  
All my bets are off.  
All my hopes are lost.

Back and forth, why oh why,  
We're always fighting fire with fire.  
Battle scarred, torn apart,  
We're always fighting fire with fire.

You, you were the stronger one,  
I didn't belong with someone so true.  
Bruised, the battle rages on,  
And I'm afraid of what we might do.

But I've been up nights making you my god,  
I finally see you're not,  
Not the one to blame.  
And we're so tired our gloves have come off,  
So let's sit back and watch us both up in flames

Back and forth, why oh why,  
We're always fighting fire with fire.  
Battle scarred, torn apart,  
We're always fighting fire with fire.

Never put it out,  
Too proud to back down.  
We're going down in flames,  
We're both of us to blame.

Fire with fire  
Higher and higher  
Fire with fire  
Higher and higher and higher and higher

Back and forth, why oh why,  
We're always fighting fire with fire.  
Battle scarred, torn apart,  
We're always fighting fire with fire.
