

## Young and Vicious

Night Terrors of 1927

I saw the fakes, the forgeries, the verdicts, the guilty pleas  
Erase the names, wrote in our own, shining, new history  
I was there kid, I was a witness, I saw what you did (2x)  
Can't bear it, another time, I saw what you did (2x)

When you were young and vicious  
Your wheels they spun, out of control  
You never lost, no matter the cost,  
Even when it cost you, control.

I watched you bleed, in the limelight  
You took your bow, you took my light  
But I didn't mind, after all you were mine  
And I helped you do it (2x)  
Someone'll take away, all of my hate  
But you couldn't do it, save me from ruin

When I was young and wicked  
I came undone, out of control  
I never lost, half what it cost  
Even when it cost me, the whole.

When we were young, and vicious  
Those songs we've sung, they took their toll  
Must've got lost, as good it was  
Hope it didn't cost us, our souls.

When you were young, and vicious  
Your wheels they spun, out of control  
You never lost, no matter the cost  
Even when it cost you, control  
Even when it cost you...
