Altimeter

Night Verses

Bodies burn up above.
Concave recluse.
Restless, you don't wanna live.
Meaningless excuse and no god up above.
Trust me, you don't wanna live.
All the cursed and cold.
All the scared and alone.
All the broken youth, unexplainable.
All the saddest songs.
Artificial lungs swallow broken glass.
Laugh at death until you're gone.
Something's wrong.
You're sinking deep through the mouth of the sun.
Memories scatter the earth.
Constant abuse.
Restless, you don't wanna live.
Serpent, unholy masochistic truth.
Trust me, you don't wanna live.
All the cursed and cold.
All the scared and alone.
All the broken youth, unexplainable.
All the saddest songs.
Artificial lungs swallow broken glass.
Laugh at death until you're gone, gone, gone.
Broken, you'll fall back down.
Crashing without a sound.
You'll never see your love again.
