

PANIC AND PULL YOUR HEART OUT

Night Verses

Broken ghosts inside our minds
Digging up complacent ends
Penetrate the flesh that tastes of mulch
In the cemetery where no one knows

Grab at the sky
Stab at the walls
Escape from the Vault
Panic and pull your heart out

Burning Bones
We bathe in fire
Underneath the city streets
Bloody headstones laced with salt and skulls
In the cemetery where no one goes

Grab at the sky
Stab at the walls
Escape from the Vault
Panic and pull your heart out

Grab at the sky
Stab at the walls
Escape from the Vault
Panic and pull your heart out

Grab at the sky (Grab at the sky)
Stab at the walls (Stab at the walls)
Escape from the vault (Escape from the vault)
Panic and pull your heart out
Grab at the sky (Grab at the sky)
Stab at the walls (Stab the walls)
Escape from the vault (Escape from the vault)
Panic and pull, panic and pull
Panic and pull your heart out!
