

Slow Dose

Night Verses

Double up the dose
I trusted you the least
Dying on my feet
Or was I just asleep?

Shake the powder down from off the side
I'm in the corner

Double up the dose
I trusted you the least
Dying on my feet
Or was I just asleep?
Asleep

Keeping friends with friends of the enemy
Toss the quarter up in the air
Keeping friends with friends of the enemy
It's your time to call it

We might as well surrender

Keeping friends with friends of the enemy
Toss the quarter up in the air
Keeping friends with friends of the enemy
It's your time to call it

Keeping friends with friends of the enemy (Do the forensic shake)
Toss the quarter up in the air
Keeping friends with friends of the enemy (Do the forensic shake)
It's your time to call it

Double up the dose
I trusted you the least
Dying on my feet
Or was I just asleep?
