

Yours

Night Verses

You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night
And it hurts me

I've been stuck in-between the lines
Complicated by design
I'm at a loss, I'm barely breathing
I've been stuck in-between your lines
That's why

You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night
Yeah it hurts me when you're down

I've been stuck in-between the lines
Complicated by design
I'm at a loss, I'm barely breathing
I'm wandering in disbelief and
I've been stuck in-between the lines
That's why

You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night
Yeah it hurts me when
You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night
Yeah it hurts me when you're down

(When you're down down down)

I wanna know, I wanna know
If your tongue tied slipping with a chemical burn
Where did you go? Where did you go?
I wanna know, I wanna know
Is it me or are you dripping with a cynical hurt?
Where did you go? Where did you go?

Complex
When you're leading me to the blind
Nothing but a complex
When you're leading me to the blind
You're giving me a complex
When you're leading me to the blind
Nothing but a complex
When you're leading me to the blind

You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night
Yeah it hurts me when
You collapse the sky beneath the ground
And the dead start shaking up
I can touch you in the night

Yeah it hurts me when you're down
