

Breathe Without You

Nightcore

Breathe without you, how I can I breathe without you.
Breathe without you, I'll never breathe without you

Coming in the distance from me to you, and the need to surface
All colours fade to blue, getting through another night, sleeping
through another day.
Heaven seems so far away.

Breathe without you, how I can I breathe without you.
Breathe without you, I'll never breathe without you
Breathe without you, how I can I breathe without you.
Breathe without you, I'll never breathe without you

Swimming through the images you left behind, fictions of the heart, not sure I try to find.
Getting through another night, sleeping through another day.
Heaven seems so far away.
There may be questions I don't, maybe answers I regret,
But there's too many things I can't forget.

Breathe without you, how I can I breathe without you.
Breathe without you, I'll never breathe without you
Breathe without you, how I can I breathe without you.
Breathe without you, I'll never breathe without you
