

Don't Say Goodbye

Nightcore

Don't say goodbye
Try to tease and we've cried
Don't say goodbye
You're my star wherever you are

Don't say goodbye
Try to tease and we've cried
Don't say goodbye
You're my star wherever you are

I'm just wasting my time
I thought you were mine
Now all I try to find is you
What should I do
I'm all that I thought
I trust in you

I'm just hanging around
It seems that I'm drowning in the memories of you
Tell me what to do
I want you to know I'm here
I still believe
Just save me from tears

Don't say goodbye
Try to tease and we've cried
Don't say goodbye
You're my star wherever you are

Don't say goodbye
Try to tease and we've cried
Don't say goodbye
You're my star wherever you are
Don't say goodbye
