

# Lucky Star

Nightcore

Your on my mind  
Your are so far away from me  
Long is the night  
Open your eyes and you will see  
Love like a rose  
Like a candle in the wind  
Let all this grow  
Don't turn  
Away

I could be your lucky star  
Your everlasting love  
Aheei  
You could be my superstar  
I couldn't get enough, of your love  
Aheei

You turn away I know you can see my broken heart  
Why don't you stay  
It got too hard so far apart  
Every rose  
Every rose has got to go  
When I need you most, you turn, away.

I could be your lucky star  
Your everlasting love  
Aheei  
You could be my superstar  
I couldn't get enough, of your love  
Aheei

Like a river  
Leads to the ocean  
My love is floating to your heart  
It will never stop  
Were strong together  
For now and forever  
You could be my lucky star

I could be your lucky star  
Your everlasting love  
Aheei  
You could be my superstar  
I couldn't get enough, of your love  
Aheei
