

Now I'm Free

Nightcore

Why it did with ever start a thing?
It will all end in a big no thing
Baby don't you think you're the only one
I can get million
Sugar now you're gone.

Baby now I'm free
Dying away
Tasting the real life
Day after day
Baby now I'm free
You're wasting away
Why did you hurt me
Night after day?

Baby now I'm free
Dying away
Tasting the real life
Day after day
Baby now I'm free
You're wasting away
Why did you hurt me
Night after day?

Let them take a good look at me
The light is doing a stranger things to me
I have the power to rip your heart out
To make you feel no pain
You gave me the strength to play it
Like an easy game

Baby now I'm free
Dying away
Tasting the real life
Day after day
