

Without You

Nightcore

When I look at the sun
I can feel no warming light
And at night stars are
only half as bright

When I look at the world
All the colours fade to grey
Baby im pleased to sing
For another lonely day

I can get no sleep
don't know how to breathe
I feel like I'm falling down

Down on the ground without you

I can get no sleep
don't know how to breathe
I feel like I'm falling down
Down on the ground

I can get no sleep
don't know how to breathe
I feel like I'm falling down
Down on the ground without you
