

# i wish you loved me

Nightly

I wish that you would be honest  
Wish you would say it to my face  
I'm not somebody that you care for  
Yeah, I'm just fillin' this space

And lately it feels like when you look at me  
All you see is your own reflection  
And I'll try not to paint you as someone that's heartless and mean  
But you don't ever give what you get  
You know it's true, yeah

I wish you loved me like you love yourself  
You look at me and you see someone else  
Use my face just like a mirror  
Baby, what's that all about?  
I wish you loved me like you love yourself

You're really good at conversation  
As long as it's about you  
You got a toxic fixation  
On keepin' me in your view

You mask your guilt in affection  
You got an overobsession  
With always getting your way  
As long as you get attention  
You're never wrong when you're righteous  
You always put me in crisis  
And tell me it's 'cause you love me well  
Maybe you do, but

I wish you loved me like you love yourself  
You look at me and you see someone else  
Use my face just like a mirror  
Baby, what's that all about?  
I wish you loved me like you love yourself

Baby, don't tell me that you love me  
When you don't, you just want somebody  
Baby, don't tell me that you love me  
When you don't, you just want somebody

I wish you loved me like you love yourself  
You look at me and you see someone else  
Use my face just like a mirror  
Baby, what's that all about?  
I wish you loved me like you love yourself

Baby, don't tell me that you love me  
When you don't, you just want somebody
