

# MESS

**Nightly**

Every time you come around I slip  
Give me those eyes and I can't stop falling

I know you know I can't resist  
And once you start no there's just no stopping

I try not to think about it  
Just keep on falling  
Can't find a way around it  
One look from you

And I'm a mess  
Every time you hit my phone I sweat  
Smiling but you're not so innocent  
Even if I let you go  
You come back again  
And I'm a mess

Part of me is tryna drive away  
The other part is stuck in the rearview mirror

You got a power over me  
Even when you go oh the taste still lingers

I try not to think about it  
Just keep on falling  
Can't find a way around it  
One look from you

And I'm a mess  
Every time you hit my phone I sweat  
Smiling but you're not so innocent  
Even if I let you go  
You come back again  
And I'm a mess
