

# naked

Nightly

She calls me up late  
As if I'm always lying in wait  
The type of girl inside a magazine page  
She's leaving me with nothing to say  
So she goes

It's not just your body I've been fighting in my head  
I was too slow to answer and then that's when she said

You're the only thing I've been thinking about  
Stuck in my brain when you're not around yea  
Don't make me say it  
I wish we were naked yea  
Go ahead get under my skin  
Been touching myself 'til we do it again  
I don't wanna fake it  
I wish we were naked

I see her online  
Feel like a voyeur wasting my time  
Overly cautious whenever she comes by  
'Cause I know that she can see through my eyes  
And she knows

It's not just your body I've been fighting in my head  
Saw her out at a party and then that's when she said

You're the only thing I've been thinking about  
Stuck in my brain when you're not around yea  
Don't make me say it  
I wish we were naked yea  
Go ahead get under my skin  
Been touching myself 'til we do it again  
I don't wanna fake it  
I wish we were naked

It's not just your body I've been fighting in my head  
Saw her out at a party and then that's when she said

You're the only thing I've been thinking about  
Stuck in my brain when you're not around yea  
Don't make me say it  
I wish we were naked yea  
Go ahead get under my skin  
Been touching myself 'til we do it again  
I don't wanna fake it  
I wish we were naked

(I wish we were naked)
