

Say Anything Else

Nightly

Just call it a fight
Tell me to find a new ride home
Say you need a night
Park in a motel

Just tell me to leave
And I can just leave and go
Say the worst thing you can think of, make it hurt
And I'll take it well

But don't, don't say it's over
Say just don't, don't say it's over
Say anything else

Don't call it the end
Tell all of your friends it's done
That it's for the best
You being by yourself
I can't understand how you're so quick to fall out

But don't, don't say it's over
Say just don't, don't say it's over
Say anything else

'Cause all I was looking for
Was a safe place
And I've seen that look before
On your face

Say anything else

Don't, don't say it's over
Don't, don't even say that it's over, over, over
Say anything else

I can't understand how you're so quick to fall out
With someone you know so well

Just don't, don't say it's over
Say anything else
