

TALK

Nightly

Got me on the ropes
All alone
Feeling it in my fingers is starting to go cold
All black
White gold
Eyes are magnetized to wherever she goes

Her body's moving and I'm losing all control
And I'm tryna find a way out
She's not speaking but I already know

She don't wanna talk
She just wanna leave
Back of the bar
With her hands on me
She don't wanna waste
Any of her time
Only one thing on her mind
She don't wanna talk
She don't wanna talk

See it in her eyes
All the time
I could say I don't want it but baby that's a lie
Oh I
Can't deny
Cause you shut me up every single time time that I try

Her body's moving and I'm losing all control
And I'm tryna find a way out
She's not speaking but I already know

She don't wanna talk
She just wanna leave
Back of the bar
With her hands on me
She don't wanna waste
Any of her time
Only one thing on her mind
She don't wanna talk
(She don't wanna talk)

Talk, talk, talk
She don't wanna talk
Talk, talk, talk
She don't wanna talk

She don't wanna talk
She just wanna leave
Back of the bar
With her hands on me
She don't wanna waste
Any of her time
Only one thing on her mind

She don't wanna talk
She just wanna leave

Back of the bar
With her hands on me
She don't wanna waste
Any of her time
Only one thing on her mind
She don't wanna talk
She don't wanna talk
She don't wanna talk
She don't wanna talk
