

## tv shows

Nightly

Cue the lights babe  
Tryna to pass the time in my driveway  
Just lookin for a reason I can  
Reach out is it too fast  
I might be in over my head  
I'm not sure how you feel  
I just wanna know

Is it alright  
If I call you  
Drive over to your place when you're free  
Cause in the blue light  
Of your bedroom  
I could die just you and I  
Watching TV shows that we've both seen

I could die just you and I  
I could die just you and I

I don't wanna call it out  
And maybe it's too soon but  
Swear I can't sleep  
Whenever you leave  
Feels like I'm missing something  
I'm trying to reel it in  
But the feeling that you're giving's  
Got me crawling out my skin  
So

Is it alright  
If I call you  
Drive over to your place when you're free  
Cause in the blue light  
Of your bedroom  
I could die just you and I  
Watching TV shows that we've both seen

I could die just you and I  
I could die just you and I

Tried other places  
Other faces but it don't feel right  
I hope you know that I've been  
Lonely without you  
I tried flipping stations  
Couldn't shake it even if I tried  
Can't go without you babe  
Can't go without you

Is it alright  
If I call you  
Drive over to your place when you're free  
Cause in the blue light  
Of your bedroom  
I could die just you and I  
Watching TV shows that we've both seen

I could die just you and I  
I could die just you and I  
I could die just you and I  
I could die just you and I
