## Nightmares on Wax

You take your first steps  
Moment ?  
Guide you forward up  
You stand up so what so unforgiving and  
Up on the streets gotta make a living yeah  
Up going slow, she's drooling you  
?  
The minutes you found out  
? put the word on the street ?  
Take some risks act like you don't care  
?  
And you said  
Who gives a damn about me, who gives a damn?  
  
Who gives a damn about me, who gives a damn?  
And you said  
Who gives a damn about me, who gives a damn?  
Who gives a damn about me, who gives a damn?  
Who gives a damn about me, who gives a damn?  
Love won't you tell me who gives a damn?  
You take your first steps on your way up to a light ?  
The streets are paved with gold and diamond
