

# Deadliest Sin

Nightrage

How can we escape the trepidation?

Trepidation  
Of the lies that we've been fed  
That we've been fed

From sarcastic lust and killing time  
Ethics lost in a maze of total nonsense  
Mourning for the light that was  
Petrified and damned

Among all the sins  
Never forget the torment  
Beyond the bad blood  
Recall of the Deadliest Sin

Into your own reflection  
Another world is born  
Testing your own luck  
Until you see our Scorched earth

From sarcastic lust and killing time  
Ethics lost in a maze of total nonsense  
Mourning for the light that was  
Petrified and damned

Among all the sins  
Never forget the torment  
Beyond the bad blood  
Recall of the Deadliest Sin

Deadliest Sin

Let me find the life inside

Among all the sins

Never forget the torment  
Beyond the bad blood  
Deadliest Sin

Among all the sins

Never forget the torment

Beyond the bad blood  
I am the worst  
The deadliest sin
