

Swallow Me

Nightrage

I greet your day with fire
By noon I bring you flood
By night I kiss with pestilence
Still you embrace me as your god!

In fear you drink my burning tears
And in pain you kiss my wrath
On this peak of your insanity
You're but dust upon my path

Swallow me!
I'm your escape, your remedy
Set me free!
I'm your creation, I am what you feed

So here I stand before you
Where you all will lay one day
In the ashes of tomorrow
You're just echoes in decay

I am but your creation
A ghost of your own mind

With the hunger that you keep within
I feed on your sin

Swallow me!
I'm your escape, your remedy
Set me free!
I'm your creation, I am what you feed
In fear you drink my burning tears
In pain you kiss my wrath
On this peak of your insanity
You're but dust upon my path

Swallow me!
I'm your escape, your remedy
Set me free!
I'm your creation, I am you
Swallow me!
I'm your escape, your remedy
Set me free!
I'm your creation, I am what you feed
